Aimée Parrott

Aimée Parrott's practice comprises painting, printing, drawing, sculpture and installation. The artist's understanding of painting, her primary medium, informs ideas expressed throughout her practice as a whole. Approaching the canvas as a fragile and permeable boundary - a metaphorical skin or body that holds the trace of time, thought and gesture - Parrott explores notions of transformation, connectivity and exchange.

Recent charcoal drawings continue to explore the disjunction between internal sensations and exterior impressions with works that hover between gesture and form, suggesting hybridity, metamorphosis and a symbiotic blurring of boundaries.

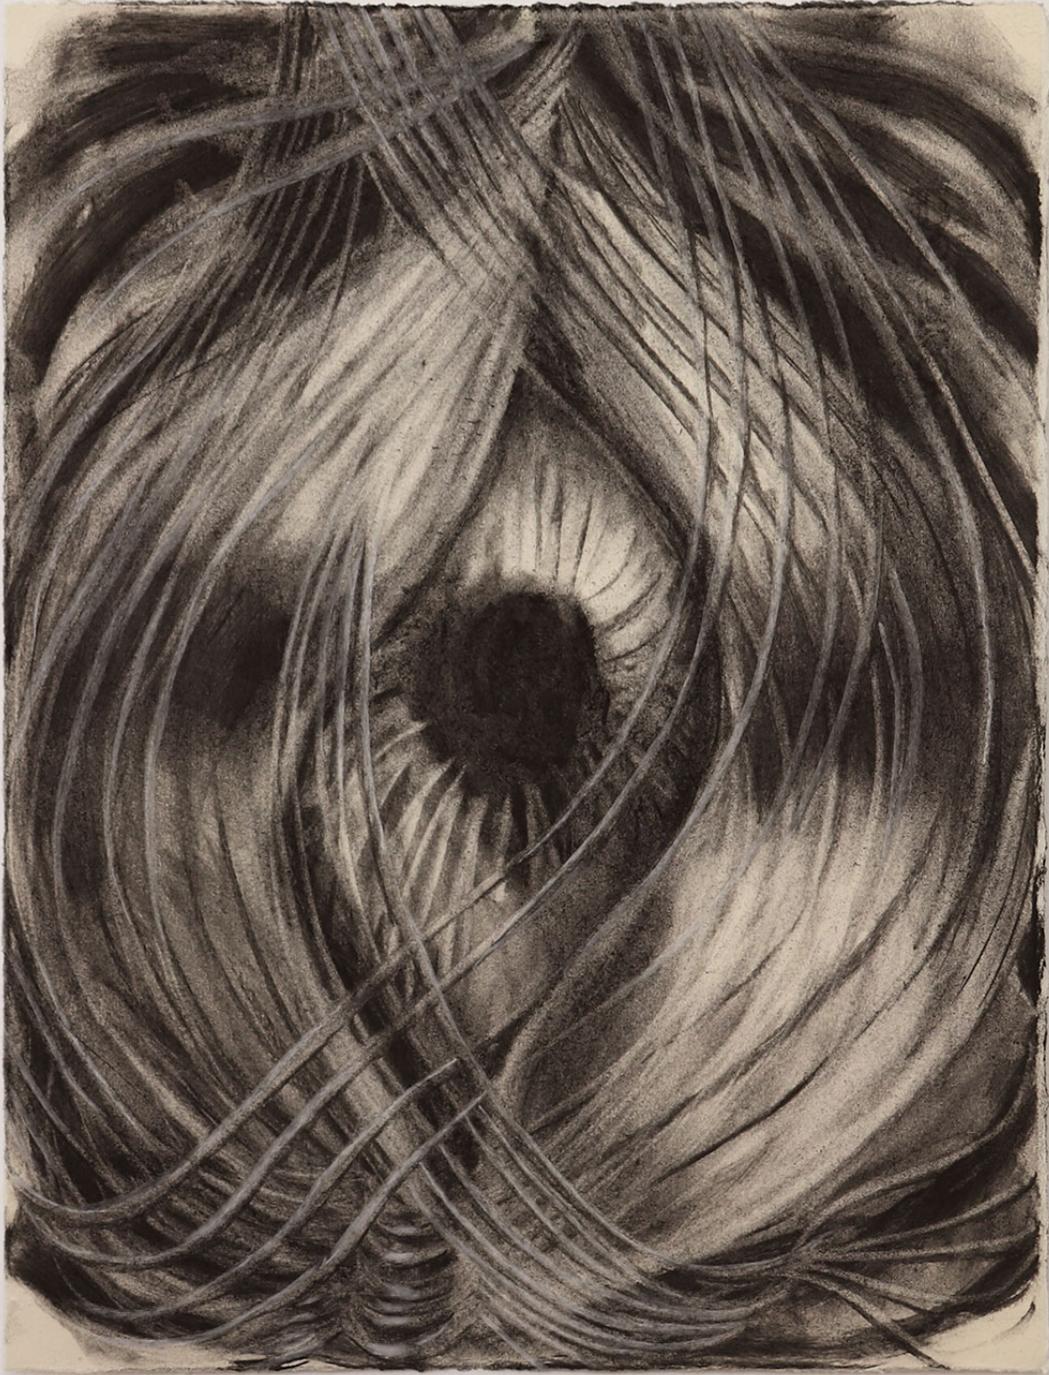

“ *(Parrott) makes connections between microbial and galactic, human and non-human, and gives painting a voice in the ecological discussions of today.* ”

– Figgy Guyver, *Frieze*, 2018

“ *As spring comes round again, the shrinking and slowing of daily routine seems to have enhanced my hypersensitivity; the manic trill of the skylark merges with the ring of tinnitus pulling consciousness from the aerial and out of reach to the embedded tunnels of the inner ear and back again.* ”

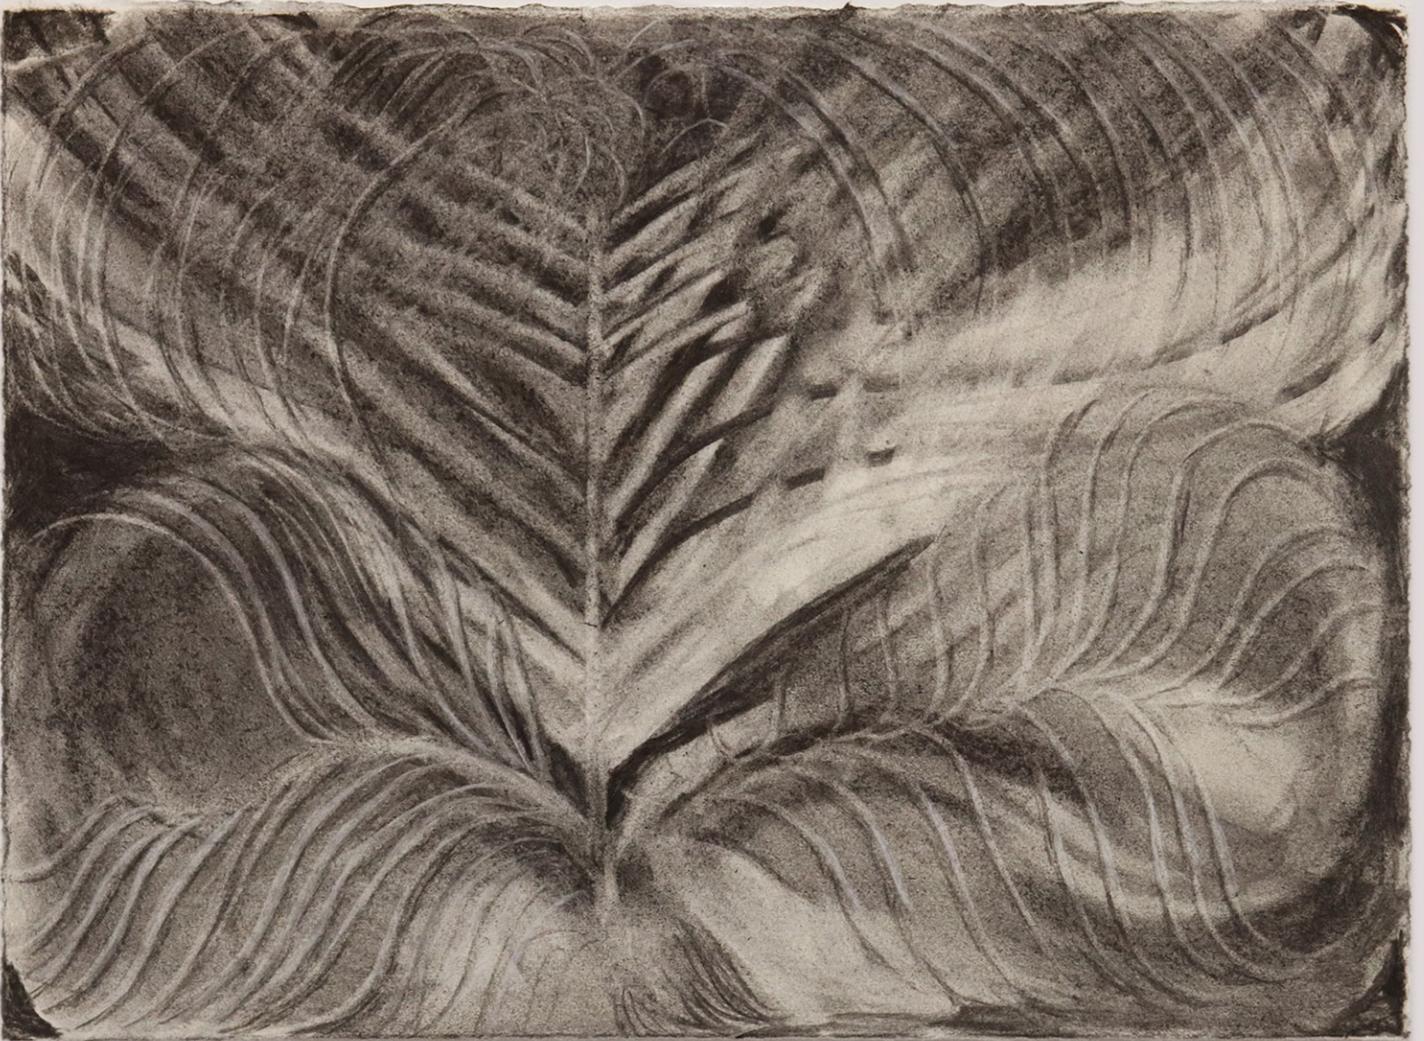

– Aimée Parrott
